

# eRoom to SharePoint Migrator Tool

## FAST, SIMPLE DATA MIGRATION TO FIT YOUR BUSINESS

Migrating content out of Documentum eRoom can be a time-consuming process if done manually. Downloading and uploading the content into your new document management application takes a long time and recreating your original structure can be a frustrating task. Unbounded Solutions has created an eRoom Migration tool that allows you to capture and migrate not only all of your content but also the structure of your original site.

The Unbounded Solutions eRoom to SharePoint Migration Tool lets you move your eRoom content with just a few clicks. Some features of the tool include:

- The eRoom to SharePoint Migration Tool lets you migrate your content without disrupting the structure of your original site
- Users can save their eRoom content into a universal XML format that can be uploaded into any document management application.
- Import your eRoom content and structure directly into SharePoint
- Start your migration in minutes with the easy-to-use interface of the tool

Unbounded Solutions' eRoom to SharePoint Migration tool enables you to move all of your content with minimal effort, saving your organization time and money.
